

November 17, 2006

Dear Parents,

All 6th grade students at Johnston Middle School are **required** to complete a Science Fair Project. The project guidelines and instructions will be given in class, and the project will be completed at home. Each student will prepare an individual project--group projects are not allowed. Four grades will be given for this project, they include:

Presentation
Display Board
Experimental Design
Bibliography and Log.

Proof of the experiment must be brought in, as well. This can be in the form of pictures or examples of the experiment itself. This is worth 50 points and is part of the Bibliography and Log portion of the grade.

The project is due for periods 1 - 4 on **Wednesday, February 28, 2007**, and for periods 5 - 8 on **Tuesday, February 27, 2007**. Projects that meet the criteria specified in the packet may be entered in the Johnston Science Fair. The Fair will be held March 26-30, 2007. ****Please note that all students are to complete a project whether they intend to enter it in the fair or not.**

Please sign and return the bottom portion of this note with your son or daughter so I know that you are aware of the assignment. Your signature will count as a homework grade for you child and is due on or before December 1st.

Sincerely,
Mrs. Stutts
Ms. D. Williams
Mr. Rivera
Ms. Jackson
